

REACHES OUT FOR MEXICO.

Octopus Hoping to Have a Tentacle There.

Harriman Must Raise His Offer First.

Burlington Withdraws Its Orders as to Great Northern Cars—Wages Raised.

(BY DIRECT WIRE TO THE TIMES.)
NEW YORK, Jan. 30.—[Exclusive Dispatch.] Negotiations are in progress for the transfer of the control of the Mexican National Railroad to the Southern Pacific interest. An authoritative statement was made by one of the parties to these negotiations today that no agreement had been reached and the chances were about even for a successful consummation. The Harriman syndicate is said to have made an offer for the majority of the Mexican voting trust certificates at a price which the principal owners consider to be too low. The closing Stock Exchange quotation today was \$24. Possession of the Mexican National would give the Southern Pacific system an exclusive line to the City of Mexico.

The capital stock of the Mexican National is \$24,000,000, and the bonded indebtedness \$12,000,000. W. G. Russell of this city is president of the company, and seven of the twelve directors are New York men. The other four directors are representatives of the Mexican government. The work of changing the gauge of the Mexican National from narrow gauge to standard is now under way.

TRAINMEN GET INCREASE.
UNION PACIFIC GENEROUS.
OMAHA (Neb.) Jan. 30.—[Exclusive Dispatch.] The Union Pacific Railroad today has agreed to a two-year agreement with General Manager Dickinson of that road whereby they receive a substantial increase in pay, and shorter hours in many cases.

The trainmen will be paid full time for "dead-heading" to their work stations for their trains, when they are delayed beyond schedule time. Hereafter passenger trains will carry two brakemen. All passenger conductors receiving less than \$12 per month are given an increase in salary from \$5 to \$10, and many other concessions were made to the entire Union Pacific system.

KATY EXTENSION.
UP THE ARKANSAS VALLEY.
DENVER (Col.) Jan. 30.—[Exclusive Dispatch.] Engineers have arrived at St. Louis, Mo., to survey the Missouri, Kansas and Texas extension from Wyback up the Arkansas Valley to Guthrie, and will begin work at once.

The new line will tap some of the finest agricultural lands in the country. It will reach some of the best towns in the Creek Nation, and will pass through the gas belt in the western part of the Territory. The line, by following the Arkansas River Valley from Muskogee to the junction of the Arkansas and Cimarron rivers, then down the south side of the Cimarron Valley to Guthrie, will have comparatively light and easy grades.

BURLINGTON BACKS OUT.
HILL MERGER NOT MENDING.
OMAHA (Neb.) Jan. 30.—[Exclusive Dispatch.] The Burlington Railroad today has withdrawn its order to the Great Northern road to be treated as Burlington cars, and so reported. Two weeks later, the order was modified to include only box cars, and today a third circular was issued doing away entirely with the original order. All Burlington cars will therefore be reported as foreign cars.

This taken at the local headquarters is taken at the fact that there is no prospect of other departments being merged into the Hill system at present. How long the independent order of things will continue is receiving no little attention of local officials and employees.

ST. LOUIS COMPLAINT.
COMMISSION HEARING IT.
WASHINGTON, Jan. 30.—[Exclusive Dispatch.] The Interstate Commerce Commission today heard the complaint of the St. Louis chapter of the Business Men's League of St. Louis against a number of transcontinental railroads, involving the question of the payment of rates for carload lots, and less than carload lots, shipped from Chicago, St. Louis and the Middle West points to the Pacific Coast. The hearing was not concluded.

RIOT IN CAIRO.
Quarrel Over Exaction of Backbeach Causes Serious Affray Between Dragomans and Hotel Porters.
CAIRO, Jan. 30.—[Exclusive Dispatch.] A riot broke out this morning among the native population here, in consequence of an angry dispute between hotel porters and dragomans over the exaction of backbeach from visitors. A hotel doorman shot two dragomans dead and wounded a third. The dragomans paraded the streets and threatened the hotel porters. At this time of the year the hotels are crowded with wealthy visitors from all parts of the world, and excitement is intense. One of the men killed was a servant of Sir John Aird, member of Parliament and a railroad contractor.

SCHWAB'S RESIGNATION.
Rumor Passed Through Wall Street, but is Denied by Morgan—The Man in Paris Will Not Talk.
NEW YORK, Jan. 30.—[Exclusive Dispatch.] Charles M. Schwab has resigned as president of the United States Steel Corporation, and is now in Paris, where he is believed to be negotiating for the purchase of the French steel works.

MURDERERS BREAK JAIL.

Warden's Wife Helps Them to Escape.

Wounded Two Guards and Get the Keys.

Infatuated Woman Deserts Husband and Children to Join Criminals.

(BY THE NEW ASSOCIATED PRESS—A.M.)
PITTSBURGH (Pa.) Jan. 30.—[Exclusive Dispatch.] A woman, who is believed to be the wife of the warden of the Allegheny County Jail, today helped a number of prisoners to escape. The woman, who is believed to be the wife of the warden, is believed to have helped the prisoners to escape by giving them the keys to the jail.

The woman, who is believed to be the wife of the warden, is believed to have helped the prisoners to escape by giving them the keys to the jail. The woman, who is believed to be the wife of the warden, is believed to have helped the prisoners to escape by giving them the keys to the jail.

SCHLEY CASE

Continued from First Page.

Speaking of this ship, the commentators declared: "The question is not so much one of possible credit to, but of possible credit to Admiral Schley, in connection with the work of that vessel in the battle of Santiago. The plain truth is that Admiral Schley did not, during the battle, in any way direct or control the splendid performance of the Gloucester and the three battleships Indiana, Iowa and Texas. The officers in command of these ships neither received nor obeyed a solitary order from him."

Next, the commentators turn their attention to what they declare were persistent errors by Schley's attorneys to show that, in some manner, the Oregon, at least, was under his orders during the battle, first by answering the signal "close up," and afterward by firing her thirteen-inch guns under signal from the Brooklyn, and they say: "But that attempt, as the testimony to be quoted below shows, was a failure."

The quote, therefore, passages from Capt. Clark's testimony, in which he said, in regard to the order "close up," that "that was a standing order in the squadron, to attack the enemy if they appeared and to keep the heads of the ships always toward the entrance."

As to the alleged order from the Brooklyn, directing the Oregon to fire her thirteen-inch guns, the commentators again quote from Capt. Clark's testimony, where, when asked if the guns were fired in pursuance of an order from the Brooklyn, the captain said: "No, sir; I fired them after deliberating with the officers," and, "if they (the Brooklyn) made a signal I did not see it."

The comment closes in the following words: "The contention that the magnificent work of the Oregon, or any part of it, was done under orders from the Brooklyn, or that the Oregon received and obeyed even the order to 'close up,' during the battle of Santiago, is a complete fiction. The only order from the Brooklyn which was obeyed was the order to 'close up,' which was a standing order in the squadron, and which was obeyed by all the ships in the squadron."

The weight of the testimony is to the effect that the commodore controlled the movements of his flagship, the Brooklyn, well, with the exception of the order to "close up," which was a standing order in the squadron, and which was obeyed by all the ships in the squadron.

THE TIMES-MIRROR COMPANY

BUSINESS

Bank clearances in Los Angeles yesterday amounted to \$7,515,161. A year ago they were \$5,515,161. In about two weeks a new savings bank, to be known as the Dollar Savings Bank, will be opened in this city. It will be the eighth institution of its kind in Los Angeles. A new private bank is about to be opened at Downey by an experienced banker, well known in that community.

Dealings in Amalgamated Copper and other stocks monopolized the New York market, and an active corn pit, with such sales, interested Chicago speculators.

TELEPHONE, TOO.
The New Year's edition of the San Francisco Chronicle was an artistic and valuable number, of which any publisher might well feel proud. As is almost inevitable in the publication of so bulky a number, it contains a brief space of time, it contains some inaccuracies. "Accidents will happen in the best-regulated families." To one of these little accidents, affecting Los Angeles, The Times has already referred. It was where the Chronicle estimated the present population of Los Angeles at 130,000, whereas it is over 200,000. Another inaccuracy is contained in an article on the telephone, in which the Chronicle says: "By all odds the greatest city in the United States, and therefore in the world, for the use of the telephone is San Francisco." The Chronicle then publishes statistics showing the proportionate number of telephones to population on December 31, 1901, in twenty leading cities of the United States, including San Francisco. According to this statement, it is a case of "San Francisco first and the rest nowhere," that city having, on the date named, a "phone to every 16 people, while the next city in the list, Boston, had only one phone to every 24 people, the other cities drifting along in the rear, with Jersey City at the end, where there were 166 people to each telephone in use.

For some unaccountable reason or other, Los Angeles is omitted from this list in the Chronicle. The omission is somewhat remarkable, on account of the fact that Los Angeles leads, not only San Francisco, but the entire world in the percentage of telephones to population. Here are the figures for the four leading cities of the Pacific Coast, on December 31, 1901, as obtained from the manager of the Los Angeles branch of the Pacific States Telephone and Telegraph Company. The figures show the percentage of telephones to population, as in the Chronicle table:

Los Angeles 11.12
Portland 9.53
San Francisco 8.81
Seattle 8.30

In other words, Los Angeles today has telephones in use for every nine people—men, women and children—in the city. This is certainly a remarkable showing. There is no city in the world, of 50,000 inhabitants or more, that can compare with Los Angeles in this respect. As will be seen from the above figures, Portland, as well as Los Angeles, is ahead of San Francisco, this city having about 30 per cent. more telephones, in proportion to population, than San Francisco. It may be added that the number of telephone subscribers in Los Angeles has increased over 100 per cent. during the past ten years.

One reason for this general use of the telephone in Los Angeles, apart from the intelligence and enterprise of our people, is doubtless the moderate charge made here for the service. The long-distance telephones are also much used here, every city, town and village of Southern California having a telephone, or being within reach of one. The citizens of Los Angeles can now talk direct to Portland, and by repeating at Portland to Spokane Falls, Washington and Lewiston, Idaho, there is connecting with the telephone line of the Rocky Mountain Company, operating through

Washington Bureau, 40 Post Building, where the latest copies of The Times may be obtained.

Office: 222 Broadway, First and Broadway.

PRINTED AT THE LOS ANGELES TIMES PRINTING PLANT, 222 BROADWAY, NEW YORK

Subscription prices: Single copies, 10 cents; 10 copies, 90 cents; 100 copies, \$8.00; 1,000 copies, \$75.00; 10,000 copies, \$750.00; 100,000 copies, \$7,500.00; 1,000,000 copies, \$75,000.00.

THE TIMES-MIRROR COMPANY

BUSINESS

Bank clearances in Los Angeles yesterday amounted to \$7,515,161. A year ago they were \$5,515,161. In about two weeks a new savings bank, to be known as the Dollar Savings Bank, will be opened in this city. It will be the eighth institution of its kind in Los Angeles. A new private bank is about to be opened at Downey by an experienced banker, well known in that community.

Dealings in Amalgamated Copper and other stocks monopolized the New York market, and an active corn pit, with such sales, interested Chicago speculators.

TELEPHONE, TOO.
The New Year's edition of the San Francisco Chronicle was an artistic and valuable number, of which any publisher might well feel proud. As is almost inevitable in the publication of so bulky a number, it contains a brief space of time, it contains some inaccuracies. "Accidents will happen in the best-regulated families." To one of these little accidents, affecting Los Angeles, The Times has already referred. It was where the Chronicle estimated the present population of Los Angeles at 130,000, whereas it is over 200,000. Another inaccuracy is contained in an article on the telephone, in which the Chronicle says: "By all odds the greatest city in the United States, and therefore in the world, for the use of the telephone is San Francisco." The Chronicle then publishes statistics showing the proportionate number of telephones to population on December 31, 1901, in twenty leading cities of the United States, including San Francisco. According to this statement, it is a case of "San Francisco first and the rest nowhere," that city having, on the date named, a "phone to every 16 people, while the next city in the list, Boston, had only one phone to every 24 people, the other cities drifting along in the rear, with Jersey City at the end, where there were 166 people to each telephone in use.

For some unaccountable reason or other, Los Angeles is omitted from this list in the Chronicle. The omission is somewhat remarkable, on account of the fact that Los Angeles leads, not only San Francisco, but the entire world in the percentage of telephones to population. Here are the figures for the four leading cities of the Pacific Coast, on December 31, 1901, as obtained from the manager of the Los Angeles branch of the Pacific States Telephone and Telegraph Company. The figures show the percentage of telephones to population, as in the Chronicle table:

Los Angeles 11.12
Portland 9.53
San Francisco 8.81
Seattle 8.30

In other words, Los Angeles today has telephones in use for every nine people—men, women and children—in the city. This is certainly a remarkable showing. There is no city in the world, of 50,000 inhabitants or more, that can compare with Los Angeles in this respect. As will be seen from the above figures, Portland, as well as Los Angeles, is ahead of San Francisco, this city having about 30 per cent. more telephones, in proportion to population, than San Francisco. It may be added that the number of telephone subscribers in Los Angeles has increased over 100 per cent. during the past ten years.

One reason for this general use of the telephone in Los Angeles, apart from the intelligence and enterprise of our people, is doubtless the moderate charge made here for the service. The long-distance telephones are also much used here, every city, town and village of Southern California having a telephone, or being within reach of one. The citizens of Los Angeles can now talk direct to Portland, and by repeating at Portland to Spokane Falls, Washington and Lewiston, Idaho, there is connecting with the telephone line of the Rocky Mountain Company, operating through

STATE SNAPSHOTS.

The Pasadena "blind pig" has arrested its discontent.

It's the blind pig of Pasadena who cannot bear the juice to wet his whistle.

The deadly 22-caliber rifle has done a fresh stunt up at Corona in the hands of the feverish small boy.

Chicago is already feeling its importance as a mail center.

Twenty-eight hobo boys were released from the San Berdo bastille.

Point their noses "other way, if you please, Mr. Sheriff."

Riverside cops have just made the first arrest for violation of the anti-spitting ordinance.

Here's hoping it isn't the last.

"Decollete costume is not in favor," says the Riverside Enterprise.

Maybe the Riverside Enterprise is a little out of its mind.

A couple of Fresno kids have started on the down town tour.

Back to the future will give a dairy course by mail.

Think you could learn how to teach cow juice down into a bucket by correspondence?

A "Frisco" must go. But won't its "dunies" go right along with it?

The "Rev." Peter York has again been allowing his mouth to work overtime.

There is another halt in the proceedings for Miss Stone's release.

It's a pretty hairy and obstinate story which the department is attempting to urge forward.

The "woods" of Western Utah appear to be full of wild-cat railroad surveys toward the Pacific Coast.

May not all prove to be mere pipe dreams.

Mayor Low appears to be an elephant that is bearing hard enough on Dr. Parkhurst's hands to provoke a squeal of displeasure from the reverend gentleman.

The House committee has plugged up the hole in the barrel whereby California street-railway scandal is introduced into the United States at a reduced duty.

In not permitting that lynching at Lynchburg, Va., the Governor of that State has demonstrated that names are not always what they seem to be.

By way of a side attraction from its exposition, St. Louis has unearthed an odoriferous street-railway scandal for the nostrils of the gossips.

A volume describing the "doins" of that Altitude outfit would be a better book for driving away the blues than the combined works of Mark Twain and Bill Nye.

Among the swell society functions receiving considerable attention in the East is the younger set just now are snow-balls.

As Mr. Croker made his friends good-bye, he said: "I tell you, I am going to be buried in New York." What, again?

President Roosevelt may now be given a chance to prove his ability as an auctioneer, by pitting canal against canal.

"Plunger" Lewis's last plunge was into water of insufficient depth to prevent his striking bottom with a grand crash.

Not all of the fanned fools and muddled oafs are of the Woodard kindling variety, by any means.

The Manchurian treaty has again been taken down, dusted off and polished up, ready for signing.

A Columbus paper says that Ohio Democrats are in harmony. So are all other dead things.

The coal man and the cold man are both very much in evidence in Los Angeles just now.

Andrew Carnegie is the latest man to point out that there can be no civilized warfare.

WILLKOMMEN, HEINRICH.

Oh, Heinrich Hohensohn, you'll be welcome when you land—

With life and drum, and cannon, too, and a whole lot of other things.

We'll show you such a welcome as you've never had before.

For, Kaiser! "Kaiser!" "Kaiser!" "Kaiser!"

WILL TAKE CITY

Will take City

EYES IN SOCIETY.

Yesterday was a day of receptions and the city ladies were kept on the move from one place to another, as many of the same persons were invited to different functions. Perhaps the most party of the day was that held at the home of Mrs. Harry Gray in the afternoon. Mrs. Gray is the wife of Mr. Harry Gray, a well-known business man. The party was given in honor of Mrs. Gray's birthday. The room was beautifully decorated. The guests were seated at long tables. The food was excellent. The party was a great success.

Men's Suits.

The men who buy these special suits at \$12.50 and \$15.00 are mighty glad they didn't purchase sooner.

They're one of the good things which come to those who wait and go after them.

Syracuse China...

This famous china has been in the market now about two years. It has gained a reputation not even surpassed by Haviland or English chinas. It is strong and durable; it is light weight; can be had in decorated and white. Prices are below Haviland.

BOSTON DRY GOODS STORE

239 South Broadway, opp. City Hall, Los Angeles.

This store is strong on Rugs and has a well-earned reputation as Blanket Headquarters. So, when we say that this announcement about

Rugs and Blankets

Is an unusually forceful argument for shopping here we are, well within bounds. Inventory is nearly over, and the rug prices especially are cut relentlessly.

Blankets.
10-4 special White California Mission Blanket, dainty pink and blue borders, \$5.00.
11-4 San Jose Mission Blanket, thick and soft, in wide binding and dainty borders, \$5.50.
Fine All-wool Wrapper Blankets, tan figures, soft gray, lavender and white, \$7.00.
Lamb's Wool Wrapper Blankets, two-toned effects; garnet, chocolate, lavender, gray, pink, blue, etc., \$8.00.
Extra Fine Jacquard Wrapper Blanket, in dainty figures and borders, soft tones, \$9.00.

Do not fail to read our full page announcement in next Sunday's Times. In our usual space we shall print details concerning a *Special Sale of Silks*. Some of them are now on display in the South window.

THEY JUST CAME DOWN.

People are Razing the
Up Derricks.

Extent of the Nuisance
Not Half Told.

Ordinance for Correcting Evil
Repealed by City Council.

The city council yesterday afternoon, by a vote of 10 to 4, repealed an ordinance which had been passed last month, providing for the removal of derricks and other structures which are a nuisance to the city.

The ordinance was passed by the council on December 10, and provided that any person who should erect or maintain any derrick or other structure which was a nuisance to the city, should be fined \$100 and imprisoned for 30 days.

The ordinance was repealed because the council felt that it was too harsh, and that it was not necessary to have such a law.

The council also passed an ordinance providing that any person who should erect or maintain any derrick or other structure which was a nuisance to the city, should be fined \$100 and imprisoned for 30 days.

The ordinance was passed by the council on December 10, and provided that any person who should erect or maintain any derrick or other structure which was a nuisance to the city, should be fined \$100 and imprisoned for 30 days.

The ordinance was passed by the council on December 10, and provided that any person who should erect or maintain any derrick or other structure which was a nuisance to the city, should be fined \$100 and imprisoned for 30 days.

The ordinance was passed by the council on December 10, and provided that any person who should erect or maintain any derrick or other structure which was a nuisance to the city, should be fined \$100 and imprisoned for 30 days.

The ordinance was passed by the council on December 10, and provided that any person who should erect or maintain any derrick or other structure which was a nuisance to the city, should be fined \$100 and imprisoned for 30 days.

The ordinance was passed by the council on December 10, and provided that any person who should erect or maintain any derrick or other structure which was a nuisance to the city, should be fined \$100 and imprisoned for 30 days.

The ordinance was passed by the council on December 10, and provided that any person who should erect or maintain any derrick or other structure which was a nuisance to the city, should be fined \$100 and imprisoned for 30 days.

GOLD AND SILVER. During December last

the gold production in South Africa

amounted to about \$2,000,000. This

figure that the production of mining is

now rapidly extending. The gold

output, 1901, until a few months ago

was extracted from these, the

rest of the world's mines. Before

the war the rate of production had

been about 200,000 tons a year.

For about two years the

have been idle, so that the stock

of gold in the world is now

today than it might have been

had the production been

continued, despite the occupation of

the mines. The American Bankers

association, however, is not

convinced of the danger to shipping

LOCAL PRODUCE MARKETS.

Potatoes rule as firm as ever, and

choice onions are held for full prices.

Oranges are firm. The crop is going

to be smaller than most guessers have

put the size at. There may not be

to exceed 10,000 carloads today in the

State. Three months would take every

carload of that. Prices for fancy fruit

should rule high the next three months.

Food barley is firmly held at 85 cents

whole, 100 lbs. rolled.

Butter is very firm. Any good dairy

bring 10 cents, and creamery 10 to 10

cents.

Eggs are a little firmer than yester-

day. The market is generally 30

cents, with some disposition to hold on

at 21.

Poultry is still very scarce, and prices

very firm. The game season closes

January 31. Friday of this week.

No shooting after that, excepting wild

geese and hares.

Flour is very firm; choice northern

brands, 100 lbs. 1.00.

Provisions are steady.

Fresh fish of all kinds are very

scarce, and prices are 10 to 10

cents.

Beams are quiet; firmly held.

Potatoes, Onions and Vegetables.

POTATOES—Per cwt. choice to fancy, 1.50

to 2.00; fair to good, 1.00 to 1.50; poor

to 1.00. Onions—Per cwt. choice to fancy,
